

Remember drawing on the playground?

Why not use DecoMark®  
- for decorative marking on a more permanent basis?

*DecoMark® is ideal for special designs, such as company logos and games etc.*

The idea of DecoMark® is quite simple:  
You name it – we make it!

**Make the horizontal surface beautiful**

To look at dark and boring surface is not an inspiring way of living. So why not put colours at the surface and make it more special and beautiful? DecoMark® provides solutions for individual and special designs of logos, games and much more. Your imagination is the only limit!

*Working with DecoMark® is easy - like a simple puzzle*

# DecoMark®

**Colourful  
with high  
UV resistance**

DecoMark® is available in all colours, which makes it easier to design decorative and inspiring signs and symbols. The colourful DecoMark® symbols spread happiness and inspiration to everyone. Moreover, the composition of the thermoplastic DecoMark® marking makes the UV resistance high. Therefore, the colours stay bright and shiny for a long time.

**Flexible and durable**

Smaller details and curving shapes are possible with flexible DecoMark®. Although DecoMark® is a thin material, it is still a durable solution when decorating the surface. This gives you years of benefit from your creative designs.

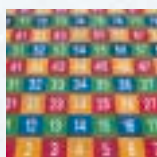

*DecoMark® is perfect for  
games in school playgrounds  
and recreation grounds.  
Why not involve the children  
in the creative phase?*

*Look out for kangaroos  
– especially if you are  
in Australia*

# Living playgrounds with a creatively designed surface

## Imaginative play

DecoMark® is an easy option when school or municipal playgrounds need refreshing with a colourful surface. The decorative games encourage the children to be active whilst having fun.

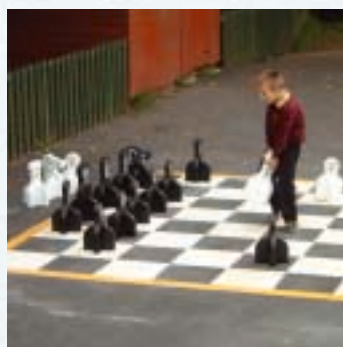

## Active and safe learning

The playground games can be designed with spelling and mathematical themes, providing an alternative and fun method of learning. The high friction in the DecoMark® material minimises the risk of the symbol being slippery, and the children can play safely.

*A fun way to learn the numbers in the school playground*

*The world as a colourful playground*

*In the pictures to the left you see examples of popular games like hopscotch and chess*

*The number snake slithers through the playground*

*The dartboard is excellent training for motor coordination – without any risk of being hit by a dart*

**THROW FROM HERE**

*Some games never go out of fashion ... especially not with DecoMark®*

## For displaying company brands

*With DecoMark® you promote your message*

### **Company logos or symbols**

Branding, image and service are important parameters for companies and organisations. DecoMark® offers a different approach for branding parking places and the entrance to your premises. Use your company logo or symbol to welcome guests and clients, and at the same time promote your image.

By marking with DecoMark®, the message gets across before entering the building

*This symbol is known to most people*

*Here, the company logo marks the parking spaces in a striking manner*

*A special welcome for guests*

*Today, branding is everywhere. DecoMark® provides an easy solution for producing logos and symbols in unusual designs*

# Decorative and architectural markings in public areas

Bricks on the surface

### Decorative thinking

DecoMark® gives freedom to design the public area differently, and you get the ability to brighten the environment.

### Designing surfaces

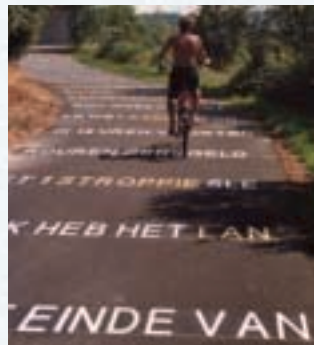

Take the surface into consideration when designing and planning new blocks of flats, city areas, parks and schools. Or think DecoMark® when guiding tourists around your city.

The flexibility of DecoMark® enables you to be creative with your designs.

A combination of vertical and horizontal decoration

Life is reading poetry while enjoying natural surroundings

In the picture to the right a butterfly welcomes you to the park

The oval decoration is a seafaring symbol in Marlborough Street, Plymouth England

Many tools are shown in the white circles

DecoMark® as an inspiring marking on the pavement

DecoMark® is unproblematic to order and fast to apply!

**Individual DecoMark® symbols are unproblematic to obtain**

DecoMark® is easily available in special and individual designs. Our modern flexible manufacturing facilities enable us to react quickly to special requests. The experience and expertise also enables LKF Vejmarkering A/S to provide high-quality, flexible, simple-to-apply DecoMark®.

**Fast application**

Application is fast and simple because application requires only one person, a broom and a gas burner! Sweep off the surface, apply the DecoMark® and use a gas burner to fix in place, 'fusing' the material to the road surface. It's that simple. In other words, no major traffic management or machinery is needed for the installation of DecoMark®.

**DecoMark® Easy**

Some symbols and markings are made as DecoMark® Easy, where the backside of the marking is glued with a compatible material making it convenient and easy to use. It gives easier control over the complex signs and saves application time, when laying complicated signs.

**Environmentally friendly**

DecoMark® emits no environmentally harmful substances, either during, after application or at the time of removal. The pigments are organic and do not contain lead or other heavy metals.

*Representative for LKF Vejmarkering A/S:*

Be decorative with DecoMark®

*It is fast to apply DecoMark® - all you need is a broom and a gas burner*

**1** Create a file or coloured copy of the logo, symbol or drawing, state the size and colour(s).

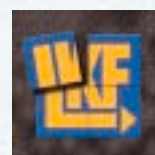

**2** E-mail or send with your contact information and we will reply with a price and delivery date.

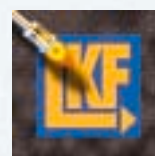

**3** You will receive your DecoMark® symbol with detailed installation instructions.

**4** Sweep and pre-heat the area before placing the DecoMark® design on the surface.

**5** Finally use a gas burner to heat in place and you are finished.
